

California OES Weather Threat Briefing

Tuesday, January 5, 2021
9:00 AM PDT

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City,
UT

- **Day 1 (Tuesday):** No notable weather impacts are expected today

WEATHER KEY POINTS

01/05/21 - 01/11/21

Tuesday

- No notable weather impacts are expected today

Wednesday-Friday

- A series of storm systems will continue across primarily northern California into next weekend
 - Another storm is expected Wednesday and will bring another period of gusty winds, locally heavy rainfall, heavy mountain snow and potentially some thunderstorms along the northern coast.
 - Minor impacts and increased runoff are possible for burn scar areas across northern and central California during periods of moderate to locally heavy rainfall, but impacts are expected to be minimal
- Another storm system is possible late Thursday into Friday, bringing an additional round of rain, mountain snow, and gusty winds.
- Elevated to near critical fire weather conditions are expected Thursday through the weekend for southern California

Saturday-Sunday

- Elevated to near critical fire weather conditions are expected Thursday through the weekend for southern California

Monday

- Additional snow impacts are possible across the northern California mountains early next week
